Professional Summary

I am a MERN Stack Developer with a strong focus on front-end development. I have 1+ year of hands-on experience building responsive and user-friendly web applications using React.js, Next.js, TypeScript, Node.js, Express, MongoDB, and Tailwind CSS. I have contributed to real-world projects while continuously enhancing my skills, learning new technologies, following best practices, writing clean, maintainable code, and solving problems.

Work Experience

Junior Front-End Developer

January 2026- present

MY SOFTAKE PVT LTD - Uttara, Sector 10, Dhaka, Bangladesh

- Developed frontend features using Next.js, TypeScript and Tailwind CSS as per UI/UX design and actively collaborated with the team in project planning and implementation.
- Implemented responsive and user-friendly web interfaces that worked smoothly across devices and browsers.
- Built and maintained clean, scalable, and maintainable frontend code for HRM systems and other SaaS projects.
- Integrated real-time chat features using WebSocket and handled dynamic data.
- Worked on performance optimization based on Server-Side Rendering (SSR) and Client-Side Rendering (CSR) with a focus on SEO improvement.

MERN Stack Developer - Industrial Attachment

September 2025 - December 2025

Bd Calling Academy - Banasree, Dhaka, Bangladesh

- Collaborated with team members on MERN Stack projects involving React.js, Node.js, Express.js, and MongoDB
- Contributed to full-stack feature implementation from front-end UI to backend logic
- Developed responsive and reusable user interface components using React.js and Next.js
- Gained hands-on experience in building and integrating RESTful APIs and managing databases with MongoDB

Front-End Developer intern

June 2024- August 2024

Creative IT Institute - Dhanmondi, Dhaka, Bangladesh

- Developed responsive user interfaces using React.js and Next.js, ensuring smooth performance across different devices
- Collaborated effectively with team members to complete assigned tasks within deadlines.
- Worked following Agile development practices to maintain an organized and efficient workflow
- Implemented features based on project requirements while maintaining clean and maintainable code.

Skills & Tools

- **Frontend** : HTML5, CSS3, JavaScript, jQuery, React.js, Next.js, TypeScript
- **UI / Styling**: Tailwind CSS, Bootstrap, shadcn/ui, Material UI, Ant Design, Next UI
- **State Management**: Redux, Redux Toolkit (RTK), Context API
- **Backend** : Node.js, Express.js, MongoDB, Mongoose, REST API
- **Authentication & Security**: JWT, NextAuth, Middleware, CORS, Zod
- **Tools & Platforms**: Git, GitHub, npm, Figma, Firebase, Postman, Docker, Socker.io

Featured Project

Textile Network – Apparel & Textile Industry B2B Platform

[Live View](#)

Descriptions: A B2B textile industry platform that connects businesses in the apparel and garment sector, enabling networking, sourcing, job listings, and industry-related updates to support business growth and collaboration.

Features:

- Collaborated on a team project focused on the apparel and textile industry.
- Developed B2B sourcing and business listing features to enhance platform usability.
- Implemented sections for textile jobs and marketing tools to provide added value to users.
- Ensured responsive design with advanced search and filtering functionality for seamless user experience across devices.
- Built the application using Next.js, Tailwind CSS, and Shadcn/UI for a modern and maintainable codebase.

Tech Stack : Next.js, Redux Toolkit, Tailwind CSS, Shadcn/UI, NextAuth

cavios – E-Commerce

[Live View](#)

Descriptions: An e-commerce platform, which has various advanced e-commerce features including server-side rendered storefront, product variant system, admin dashboard, user management, order processing, and payment/inventory management.

Features:

- Built a server-side rendered customer storefront using Next.js, implementing product variants, wishlist, compare, and cart functionality.
- Created a product search and filtering system based on category, price, and stock availability, improving search efficiency by 30% and enabling users to find products faster and more easily.
- Designed a fully responsive and user-friendly UI using Bootstrap and SASS, ensuring a smooth experience across both mobile and desktop platforms.
- Developed an admin dashboard using React and TypeScript, featuring analytics, data tables, and a role-based access control system.
- Implemented backend APIs using Node.js, Express.js, and MongoDB, covering core e-commerce features such as JWT authentication, user management, product management, order processing, and inventory management.

Tech Stack : React, Next.js, TypeScript, Tailwind CSS, Redux, RTK Query, Node.js, Express.js, MongoDB

Education

• **Diploma in Computer Science & Technology** - April 2022 – April 2026

Shyamoli Ideal Polytechnic Institute — Mohammadpur, Dhaka

Certifications

• **Front-End Development with React** - (May 2023 - January 2024)

Creative It Institute - Dhanmondi, Dhaka.
